

BLOOD FLOW AND RECOVERY

Soothes joints, discomfort, stiffness and maintains easy movement. Does not affect the liver or the digestive tract.

Rehydrate and replace calcium, magnesium, sodium, chloride, potassium, trace minerals and protein that your horse loses in considerable quantities when they sweat.

Rapid nutritional support for the proper delivery of nutrients to all the various body systems.

Bute-EZ™

Electro PRO™

Nitrox PRO™

CALMING AND FOCUS

Manage stressful situations such as breaking, training, loading, travelling, competitions.

Helps nervous horses remain calm, focused and relaxed without using Magnesium.

Calmer Bites™

Calmer PRO™

EYE HEALTH

Designed to naturally support eye health that may be affected by sunlight.

UVE PRO™

DIGESTIVE HEALTH

Complete gastric, colonic and digestive system health.

Encourages natural mucus production to line the gastric system, therefore acting as a buffer to splashing acid. Does not interfere with the natural acid production required for healthy digestion in the hind gut.

Nutritionally supports and maintains the health of the complete gastric, colonic and digestive system.

Gastro PRO™

Gastro PRO Extend™

SFM PRO™

HOOF HEALTH

Ideal for brittle/cracked feet, cracked heels, dropped sole, sheared heels, side-bone and poor hoof growth.

Hoof Growth™

HORMONE HEALTH

Supports blood flow and provides vital nutrition that is known to support a healthy hormone balance, especially in the older horse.

Specific ingredients will help the horse to shed its coat and support the immune system which is key to maintaining an acceptable hormone balance.

Sensitive Mare™

Hormone Balance™

IMMUNE HEALTH

Provides Nitric Oxide precursors necessary to facilitate maximum absorption of this formula of immunity related herbs, vitamins and amino acids.

Nitric Oxide is one of the most versatile players in the immune system and supports the horse's natural ability to keep a healthy defence against invading attacks on the body.

Immuno PRO™

MUSCLE SUPPORT

Ideal for horse's where muscle health is a concern and optimum performance and recovery is vital.

Helps support the increase of lean muscle, while adding weight, increasing water intake, stamina and supports faster recovery. Especially good for young horse development.

Muscle-EZ™

Muscle Balance™

JOINT, LIGAMENT AND SOFT TISSUE HEALTH

Aids lubrication to the joints, supports soft tissue and contains important amino acids for collagen production necessary for healthy joints and movement. Ideal for cracking or popping joints during movement, joint stiffness and soreness (particularly in colder or damp weather) back soreness and stiffness.

Most useful post-surgery support as it encourages collagen synthesis and Nitric Oxide production. Active ingredients that work rapidly to support your horse's ability to heal.

Everyday support for tendons, bones and cartilage that is essential for healthy movement.

Flamox PRO™

Nutra PRO™

JointPlus PRO™

GENERAL HEALTH

Perfect everyday multi-vitamin supplement to help maintain your horse's health and keep them in good condition.

Ideal for an easy keeper and helps balance your horse's diet.

Perform PRO™

RESPIRATORY HEALTH

Support the horse's own ability to heal damage, support blood pressure regulation and normal lung function.

Designed to support the horse's respiratory tract in coping with environmental challenges.

Maintains nutritional blood flow for healthy and optimum lung function.

Pulmon PRO™

Pulmon PLUS™

Superior Natural Formulas

Our products work by providing nutritional precursors such as L-Arginine, which are necessary for the body to synthesise Nitric Oxide an important signalling molecule that is essential to health. Nitric Oxide is used by the body for everything from blood flow to muscle building.
